NOTE FOR: See Distribution

FROM: DDR&amp;E/ICS

SUBJECT: An Upcoming Symposium

1. This note asks for a bit of your assistance.
2. ICS is helping to sponsor a two-day symposium in late November 1988 on counter-low observables. A copy of the brochure is attached. Several of you have been contacted already to participate in one way or another.
3. My particular focus is on Session 4, for the afternoon of Tuesday, 29 November.
4. I would appreciate it if REO would create a draft set of talking points for the half hour session scheduled for me on "Collection Assets--Now and Tomorrow." We ought to be using existing materials of which we have plenty rather than inventing new material.
5. My understanding is that [ ] has been in touch with you already, or will be shortly, about the session on "Collection Requirements."
6. Thanks for your help. If I can do anything to assist you, let me know.
